## **DEMONSTRATOR POSITION**

**The Department of Anatomy, Histology and Embryology awaits the application of DEMONSTRATORS for the next academic year (2018/2019).**

The appointed demonstrators will have the opportunity for active teaching in the curricular practicals of the Department of Anatomy, they can deepen their anatomical knowledge and obtain teaching experience. Furthermore, the demonstrators will hopefully join the research activity of the Department of Anatomy as a “TDK”- (Scientific Students’ Association) student.

During the demonstratorship in the Department of Anatomy the demonstrators will accept, that they are only allowed to help the students in the subjects related to the Department (anatomy, histology and embryology) outside the regular classes without accepting any recompensation.

Those students of the University can be appointed as demonstrators who – according to the Demonstrator Regulations of the Faculty of Medicine and to the requirements of the Department of Anatomy - are at least in their third year (or the second in exceptional cases), and whose

1. study average in the previous four semesters (2016/17. and 2017/18. academic years) in compulsory subjects is at least **4.00** and
2. who have been awarded a grade at least **good (4)** for the **final examination in Anatomy.**

**An advantage is given at the ranking for**

**a) Students who attended the „Clinical Anatomy”**

b) foreign language competence certified by a state-recognized language examination

c) extracurricular preliminary research or Scientific Students’ Association activity, perhaps giving talks, producing research papers, congress appearances, complementary research activity related to medical studies (specialist translations, partaking in special courses,

giving scientific-educational lectures, health-related, informative-educational activity, etc.).

The applications will be sent to the Dean after they have been ranked at the Department of Anatomy.

The demonstrator's application must include:

- the papers named above (**application letter** /addressed to the Dean and signed/, **the filled out application form** (4th page of the demonstrator regulations), the **registry sheets** of your last 4 semesters (including the current one), STAMPED by the secretariat, copies of the documents of your values listed in the application form (like language exams, etc.). *The Department of Anatomy does not require a work plan.*
- Former demonstrators must include the demonstrator report of the previous semester.

The applications should be addressed to the Dean and submitted to the secretariat of the Department of Anatomy.

**Deadline: 06<sup>th</sup> July 2018. 11:00 am**
